

tesa® 4439 Precision Mask® Outdoor

High grade paper masking tape for precise and flat paint edges outdoors

PRODUCT INFORMATION

Product Description

tesa® 4439 Precision Mask® Outdoor consists of an extra-thin and strong paper backing coated with an acrylic adhesive.

The combination of the highly equipped backing material and the outstanding special adhesive formulation allows easy removability up to 8 weeks after application outdoors. This enables multiple working processes in only one covering process.

Main Application

This tape is suited for almost all outdoor paint works.

tesa® 4439 Precision Mask® Outdoor is applicable with all common kinds of paints and lacquers and fits even for the masking of surfaces during light spatula works.

It is especially designed to suit for a variety of outdoor applications on different kinds of surfaces. The thin but resistant backing material is highly conformable and leads to flat and precise paint edges.

■ Backing material	flat paper	■ Elongation at break	5 %
■ Total thickness	100 µm	■ Tensile strength	35 N/cm
■ Type of adhesive	acrylic	■ UV-resistance	8 weeks
■ Adhesion to steel	1.8 N/cm		

Properties

■ Hand tearability	++	■ Sharp colour edge	++
■ Suitable for sensitive surfaces	o	■ Smooth colour edge	++
■ Suitable for rough surfaces	+	■ Conformability	++
■ Paint anchorage	++		

Evaluation across relevant tesa® assortment: ++ very good, + good, o medium, - low

Additional Info

The application of an adhesive tape on weathered surfaces may lead to residues during the de-masking. Thus before using an adhesive tape on a weathered surface we recommend to make a trial application for up to 24 hours.
